

E-course #5 (www.kalamelka.com)

How to set up the right currency for your e-store (Zen Cart)

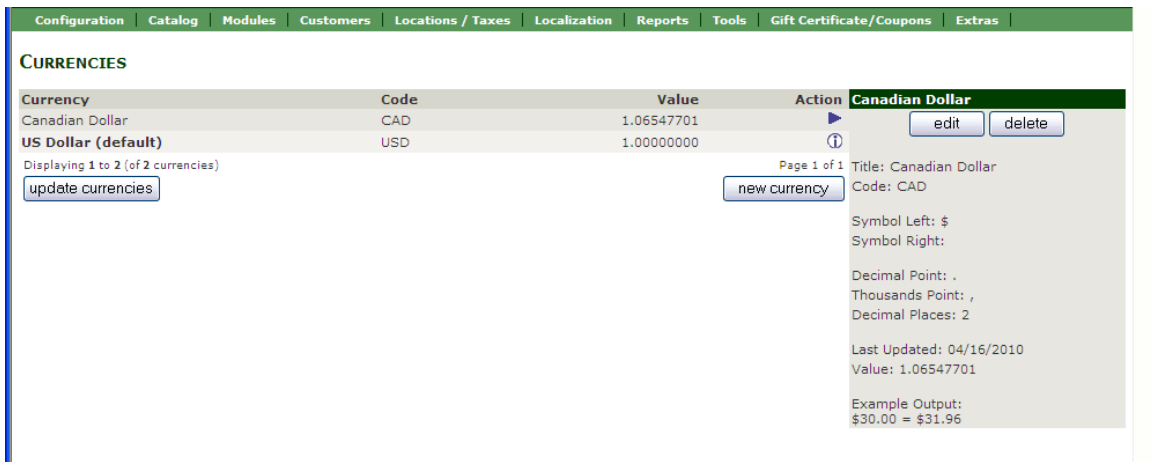

LOCALIZATION → CURRENCIES

Go to a c-panel of your e-store.

At the top menu select the “[LOCALIZATION](#)”.

Select the “[CURRENCIES](#)”.

There are five currencies in an e-store. You can use all of them at the same time, or leave one or few by your choice. If you decided to delete some currency, then select it and click the “Delete” button. See example below:

Currency	Code	Value	Action
Canadian Dollar	CAD	1.06547701	edit delete
US Dollar (default)	USD	1.00000000	new currency

Displaying 1 to 2 (of 2 currencies)

Page 1 of 1

[update currencies](#)

Title: Canadian Dollar
Code: CAD
Symbol Left: \$
Symbol Right:
Decimal Point: .
Thousands Point: ,
Decimal Places: 2
Last Updated: 04/16/2010
Value: 1.06547701
Example Output:
\$30.00 = \$31.96

For this e-store we deleted three currencies and left two: US and Canadian dollars. US Dollar set up as a default to convert another currency against it. Time from time you have to update currencies' exchange rate by hitting the button “Update currencies”.

You can add a new currency to your e-store; click the button “[New currency](#)” and enter the information to the boxes. See some example below:

Configuration | Catalog | Modules | Customers | Locations / Taxes | Localization | Reports | Tools | Gift Certificate/Coupons | Extras

CURRENCIES

Currency	Code	Value	Action	New Currency
Canadian Dollar	CAD	1.06547701	ⓘ	Please enter the new currency with its related data
US Dollar (default)	USD	1.00000000	ⓘ	

Displaying 1 to 2 (of 2 currencies)
